Find out *approach routes!*

Prepared your adventure very easily thanks to the online interactive map, with the different routes and the "J-" stopover location points. A collaborative space also allows everyone to share their own approach routes with other riders, thus facilitating sharing between Equirandins!

REGISTRATION ASSISTANCE : *more tips*

For a step by step guided registration, a video tutorial "How to register" is available on the website : equirando.com

Zoom on... *the Baie de Somme*

The Baie de Somme is a protected site and has been classified as a "Grands Sites de France" since 2011. Full of nature and history, this area is exceptional! One of its particularities is the presence of the largest colony of grey seals or marine calves in France: more than 600 individuals. Sedentary animals, they can be seen all year round on the sandbanks of the Bay.
